

A.R.I. D-46

Waterworks

Full-bore, Combination Air Valve Series

Description

A.R.I. D-46 is a full-bore, single-body, Combination Air Valve Series. Installed on liquid transmission systems, the Air Valve is designed to improve hydraulic operation by protecting the pipeline, increasing pipeline efficiency and reducing energy requirements. The Air Valve provides high-capacity air release and intake.

Installation

- Pump stations: after the pump and after the check valve
- Downstream (after) and upstream (before) of shut-off valves
- After deep-well pumps
- On long constant-sloped pipeline segments
- At peaks along the pipeline and at peaks relative to hydraulic gradient
- At end lines
- Before water meters
- On strainers and filters

Operation

Air Discharge

Air Intake

Features and Benefits

Flow cross-sections	Equal to or greater than nominal port area
Single-body design	Easy to install and maintain, reduces downtime
Aerodynamic design	High-capacity air discharge, no premature closure
	Reduces water hammer impact
	Saves energy and increases system efficiency
Screen protected outlet	Prevents intrusion of insects and debris
Construction materials	Non-corrosive and durable
Automatic air release valve rolling seal	Leak-free sealing over a wide range of pressure differentials
Automatic air release valve orifice	High flow air release, lessens obstruction by debris
 ATEX certified air valves	ATEX certified air valves are optional by customer request. Certification is conditional upon the customer connecting the designated part on the product to a dedicated ground connection point
 NSF/ANSI/CAN 61 certified & listed	For drinking water system component
 NSF/ANSI 372 certified & listed	Conforms with lead content requirements for "lead-free" plumbing

Technical Specifications

Size range	2" -6"
Working pressure range	0.1-16 bar (PN 16) Testing pressure: 1.5 times maximum working pressure
Temperature	Maximum working temperature: 60° C Maximum intermittent temperature: 90° C
Coating	Fusion bonded epoxy coating in compliance with standard DIN 30677-2

Upon ordering, please specify: model, size, working pressure, thread / flange standard and type of liquid

Valve Selection Options

Valve connection	Threaded male BSPT/NPT (2"), Flanged ends to meet various requested standard (2"-6")
Standard materials	Cast ductile iron body
Optional Add-on Components	One-way, Out-only attachment, allows for air discharge only, prevents air intake Adjustable Non-Slam disc, can also be optionally retrofitted on existing D-46 air valves.
Additional Product Configurations	SB Underground Air Valve System
Models	Elbow Outlet Models, Screen Cover Models

The isolation valve installed under the air valve must be fully open to prevent damage or malfunction and ensure performance within the specifications of the air valve.

For complete installation instructions, please refer to the IOM document.

Dimensions and Weight

Size	Dimensions (mm)		Connections	Weight (kg)	Orifice Area (mm ²)		
	max. A	B			C	A / V	
Elbow Outlet Models							
2" (50mm) FL	202	336	2" BSP/NPT F	7.3	1963	15.0	
3" (80mm) FL	200	467	3" BSP/NPT F	13.0	5027	13.8	
4" (100mm) FL	220	537	4" BSP/NPT F	18.2	7854	13.8	
6" (150mm) FL	362	757	6" Grooved	43.6	18250	15.0	
Screen Cover Outlet Models							
2" (50mm) FL	165	301	NA	6.8	1963	15.0	
3" (80mm) FL	202	375	NA	12.8	5027	13.8	
4" (100mm) FL	235	425	NA	17	7854	13.8	
6" (150mm) FL	323	594	NA	43	18250	15.0	

FL - Flanged THR - Threaded

NOTE: The cover assembly with the discharge elbow can be set in four directions. Dimension A in the picture and in the table shows the maximum product width. This width can be reduced by changing the cover direction.

All product weights are approximate, due to the differences in flange standards, materials and variable accessories.

Parts List and Specification | 2"

No.	Part	Material
1	1. Discharge Assembly	
1a	1a. Discharge Elbow or Screen Cover	Polypropylene
1b	1b. Seal	NBR
2	2. Body Assembly	
2a	2a. Optional - Non Slam Disc	Reinforced Nylon
2b	2b. Body	Ductile Iron
2c	2c. Drain Outlet	Polypropylene
2d	2d. Pressure Release Plug	Reinforced Nylon
3	3. Air Release / Air & Vacuum Assembly	
3a	3a. Air & Vacuum Seal	EPDM
3b	3b. Air Release Cover	Acetal
3c	3c. Rolling Seal	EPDM
3d	3d. Float	Polypropylene
4	4. Seat Assembly	
4a	4a. Float Seat	Acetal
4b	4b. Snap Ring	Reinforced Nylon
